1) International theme - **The power of light**

This theme is aimed on support and reflection of current topic- International year of light 2015. This year, 2015, is a year full of anniversaries of inventions research on light. From the first studies of Optics 1000 years ago till inventions on Optical communication, that today power the Internet.

For example, it is the 50th anniversary of the invention of optical fibers, but also the anniversary of the general theory of relativity created by Albert Einstein - just a hundred years ago Albert Einstein described light in space and time.

In the form of multi-genre connections photos and International Year of Light 2015, we join the celebrations and with art inspire by light, we invite photographers to capture the various manifestations of light in the photo.

2) Regional theme: **Bystricko region, man and nature**

There has been created a photo gallery in this theme circuit through last 5 years that is restored with art and documentary photos every year.

This theme encourage all photographers to take pictures not only beautiful nature of Bystricko region but especially people that are part of that region, their connection to the area and nature there.

The goal of this theme is to find out all the small connections between people, nature, traditions and atmosphere of the place- the unique genius loci of places that belong to Bystricko.
